**Highly Trained Engineers
& Low Voltage Installers**

specialized in the design, installation, implementation and service of functional and sophisticated network systems specific to your environment and requirements.

Specialized in structured cabling design and installation, voice and data cabling, network and fiber optic installation.

When it comes to choosing the best structured cabling companies for your project, we are certified structured cable and low voltage contractor for all your voice and data cabling, office network cabling and data center solutions, and low voltage wiring in the UAE.

Whether you have a new construction project that needs to be fully cabled or an existing building or office that only needs a few additional data drops, we can provide you with all your structured cabling and wiring needs.

With extensive experience and expertise in providing professional voice & data network cabling and wiring services, we work closely with construction contractors, management companies, IT managers, architects & interior designers and business owners.

Our cabling and wiring services include:

- Network & Data Cabling
- Communications Cabling
- Structured Cabling
- Server Rack Cabling
- Cable and Wiring Repair Services

STRUCTURED CABLING

From standalone solutions suitable for small offices, residential building or retail stores, to complex systems suitable for multi-door and multi-site installations for larger offices, businesses, commercial buildings, hospitals, schools and more, HSCT Access Control Solutions will provide a safe and secure environment for your employees, tenants, data and physical assets across your facility.

A Wide Range of Customized Systems and available, such as:

- Keypad, Card & Fob Keyless Entry Systems
- Cloud-Based Access Control Solutions
- Mobile Access Systems
- Biometric Access Control System
- Visitor Management Systems
- Security Turnstile Systems
- ID Badging System

ACCESS CONTROL & ATTENDANCE

We find HSCT services always up to the global standards. ”

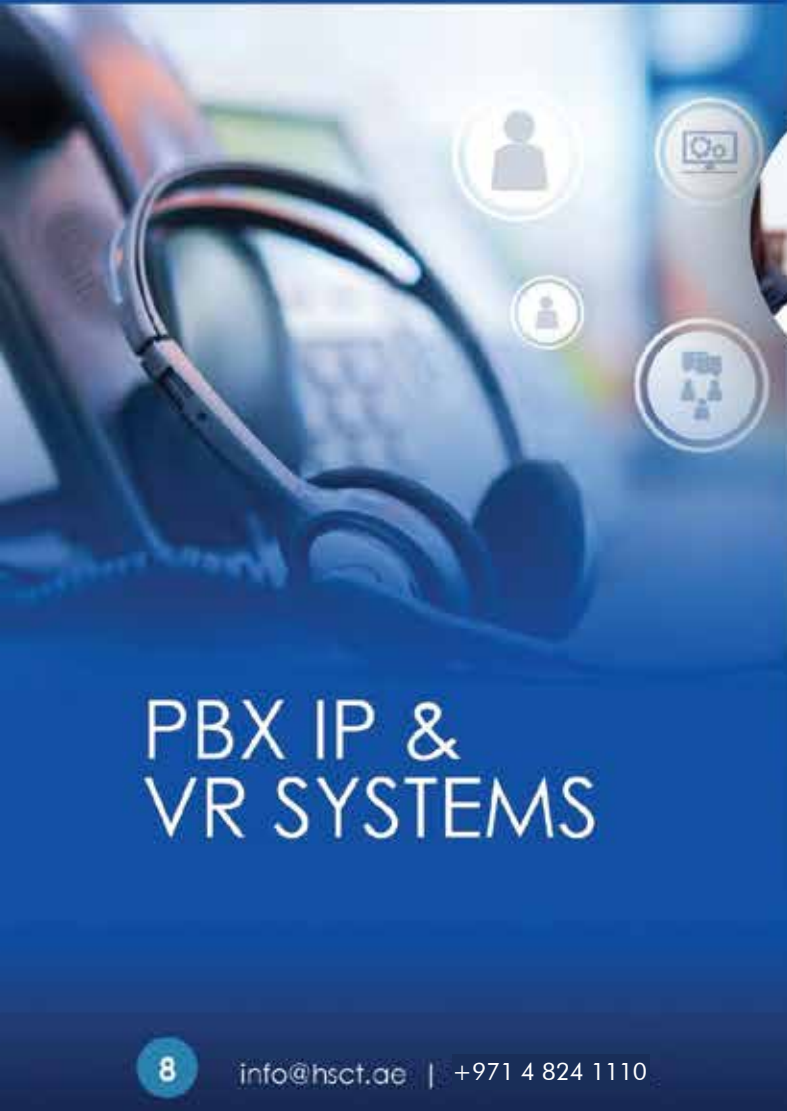

Head of Security
Dubai Airports - UAE

CCTV SYSTEM

HIGH SPEED SECURE can design and install C.C.T.V systems to your specific requirements and needs from a simple one camera to a multi camera system. We use the latest digital recorders and high resolution cameras. We can offer a full networked compatible system with remote viewing facility. our range of cameras go from simple static fully motorized with full pan and tilts facilities.

The systems can be viewed on conventional monitors or LCD screens which can be wall or ceiling mounted. Our systems can be controlled via our range of DVRs which can record each camera digitally and independently and store the information on its own internal hard drive, a back up can be taken at any time via a DVD CDR flash drive.

PBX IP & VR SYSTEMS

Our customer satisfaction rating increased by 10% with HSCT solutions. ”

Head of Customer Experience
Al Shaya Group - UAE

PBX (Private Branch Exchange) phone is the most required thing in today's Business. One important advantage of a PBX is that it controls the numbers that can be dialed from within the system. A correctly configured PBX can limit access to some expensive numbers. The PBX's ability to share a group of lines among many extensions also results in significant savings. For example, 10 to 15 lines can often serve an office with 100 extensions. This saves enormously because every phone in the company must be furnished with a line.

HSCT provides technical services that include the installation of all major brands Such as Avaya, Panasonic, Dlink, Grand stream, Yeaster, Samsung, Digium, LG in Dubai, UAE.

A wide range of equipment to help achieve efficiency and increase productivity in the functioning of your work environment. We can take care of all your hardware and software requirements including:

- PCs and Laptops
- Computer Accessories
- Printers, Toners, and Cartridges
- Servers and Workstations
- Routers and Switches
- IP & Analogue Phones
